Multidisciplinary clinical care premises of MDCRC inaugurated

COIMBATORE, OCT 21

The multidisciplinary clinical care premises of Molecular, Diagnostics, Counseling, Care and Research Centre (MDCRC), located in the 7th floor of Royal Care Super Specialty Hospital was inaugurated recently. Dr.Kalpana Narendran, Chief, Intraocular Lens & Cataract Services, Aravind Eye Hospital, Coimbatore was a special invitee and Mr.Prasanna Kumar Shirol, Founder Member, Organization of Rare Disease India was the Guest of Honour on the occasion. Dr. Madeshwaran, Founder and Chairman, Royal Care Super Specialty Hospital was also present on the occasion.

Dr.Kalpana Narendran congratulated the team and stated that the new clinical care step is yet another step that MDCRC is taking towards serving children afflicted with Duchenne Muscular Dystrophy.

Mr.Prasanna Kumar Shirol while lauding the work of Dr.Lakshmi and team said that setting up of such a centre was not just a dream come true for MDCRC but of a dream of all the parents of the children afflicted with the condition. Dr.Madeshwaran said that MDCRC was doing a fantastic job and wished its team all the best in their future endeavours.

The MDCRC team gave an overview on

'Why The Care Centre' and briefed about the services of MDCRC on the occasion. A yoga performance by the children was another highlight on the occasion.

Earlier Dr.Lakshmi, Managing Director of MDCRC delivered the welcome address and gave a presentation on the various activities and services of MDCRC. She said that the vision of MDCRC was that by year 2020, Tamil Nadu will be the state where there will be no kid with Duchenne Muscular Dystrophy who goes unidentified.
